OTHER MAJOR EVENTS HOSTED AHEAD OF THE GAMES: In addition to the Shenzhen 2011 Universiade, Shenzhen is the host for several annual international sports events, such as China Cup International Regatta and UIM.F1 World Championship GP of China.

VISION / LEGACY STATEMENT: Shenzhen, home to the youngest and most innovative population in China, never sticks to convention, so we are going to transform the traditional sports event into a joyous party where the intensity of competition will be mitigated by a delightful atmosphere and students can enjoy the exotic travelling and taste the unique tropical fun of this coastal city in southern China. In order to achieve this goal, we will provide almost as excellent facilities as that of Beijing Olympics and exceptional service to all participants in the event.
